What are cookies?

Cookies are small data files that are placed on your computer or mobile device when you visit a website. Cookies are widely used by website owners in order to make their websites work, or to work more efficiently, as well as to provide reporting information.Cookies set by the website owner (in this case, Escape Room Stories) are called "first-party cookies". Cookies set by parties other than the website owner are called "third-party cookies". Third-party cookies enable third-party features or functionality to be provided on or through the website (e.g., advertising, interactive content, and analytics). The parties that set these third-party cookies can recognise your computer both when it visits the website in question and also when it visits certain other websites.

Why do we use cookies?

We use first-party and third-party cookies for several reasons. Some cookies are required for technical reasons in order for our Websites to operate, and we refer to these as "essential" or "strictly necessary" cookies. Other cookies also enable us to track and target the interests of our users to enhance the experience on our Websites. Third parties serve cookies through our Websites for advertising, analytics, and other purposes. This is described in more detail below.

Types of cookies we use

• Essential Cookies: These cookies are strictly necessary to provide you with services available through our Websites and to use some of its features, such as access to secure areas.

• Analytics and Performance Cookies: These cookies collect information that is used either in aggregate form to help us understand how our Websites are being used or how effective our marketing campaigns are, or to help us customise our Websites for you.

• Functionality Cookies: These cookies allow our Websites to remember choices you make when you use our Websites, such as remembering your login details or language preference.

• Advertising Cookies: These cookies are used to make advertising messages more relevant to you. They perform functions like preventing the same ad from continuously reappearing, ensuring that ads are properly displayed for advertisers, and in some cases selecting advertisements that are based on your interests.

How can I control cookies?

You have the right to decide whether to accept or reject cookies. You can exercise your cookie rights by setting your preferences in the Cookie Consent Manager. The Cookie Consent Manager allows you to select which categories of cookies you accept or reject. Essential cookies cannot be rejected as they are strictly necessary to provide you with services.

Additionally, most web browsers allow you to control cookies through the browser settings. To find out more about cookies, including how to see what cookies have been set and how to manage and delete them, visit aboutcookies.org or allaboutcookies.org.
